PROFILE

Second-year B.Tech Information Technology student building full-stack products across web and mobile with React, Next.js, TypeScript, Firebase, Supabase, and Flutter. Technical Team Vice Head at a college cybersecurity club, with working knowledge of cybersecurity fundamentals, threat analysis, and AI/ML concepts. Shipped a working prototype at Smart India Hackathon 2025 and independently built and deployed multiple production applications end to end. Seeking a software engineering internship or research role in AI-driven product development.

EDUCATION

SRM Institute of Science and Technology

Chennai, India

B.Tech, Information Technology · GPA: 9.07/10

Expected May 2029

Coursework: Object-Oriented Programming, Data Structure & Algorithm, Problem Solving and Programming, Operating System, Computer Organization & Architecture, Advanced Programming Practice.

EXPERIENCE

Technical Team Vice Head

May 2026 - Present

CHAT - Community of Hackers and Advanced Technologists, SRMIST

- Lead technical direction for the club's flagship full-stack web platform (Next.js, TypeScript, Firebase), owning architecture, admin tooling, and a dual Red Team/Blue Team design system.
- Promoted from Technical & R&D Domain Member for cross-functional contributions to club technical initiatives.

Technical & R&D Domain Member

Sep 2025 - May 2026

CHAT - Community of Hackers and Advanced Technologists, SRMIST

- Independently hosted 3 technical event and co-managed many club-wide events, covering logistics, scheduling, and cross-team coordination.
- Researched cybersecurity and AI/ML topics to support technical content for club initiatives and events.

PROJECTS

CHAT Club Platform (In Progress)

2026

- Full-stack club platform built in Next.js, TypeScript, and Firebase; features a dual Red Team/Blue Team theme system, admin panel, and custom animation components.

Echoes - Anonymous Message Board

2026

- Anonymous message board with a constellation-based UI, built in React, Supabase (Postgres, RLS), and Framer Motion; includes admin dashboard, report handling, and rate limiting.

Live: echoes-sandy.vercel.app

D Brownies - Billing & Order Management App

2026

- Flutter/Dart Android billing app deployed for a live food-stall client, with Bluetooth ESC/POS receipt printing and a SQLite backend.

Certiva - PDF Certificate Automation

2026

- Client-side certificate generator built in TypeScript and React; processes entirely in-browser with no server uploads.

Live: certiva-seven.vercel.app

SKILLS

Languages: Python, JavaScript, TypeScript, Dart, C, C++, SQL, HTML/CSS

Frameworks & Platforms: React, Next.js, Flutter, Tailwind CSS, Framer Motion, Firebase, Supabase

Tools: Git, VS Code, Figma, Google Suite, Canva

Soft Skills: Team Collaboration, Problem Solving, Time Management, Communication, Leadership, Presentation.

CERTIFICATIONS & ACHIEVEMENTS

- Cybersecurity Fundamentals - IBM (Jun 2026)
- Artificial Intelligence Fundamentals - IBM (Jun 2026)
- Getting Started with Artificial Intelligence - IBM (Jan 2026)
- Python (Basic) - HackerRank (Jul 2026)
- Rajya Puraskar - The Bharat Scouts and Guides, highest award in Indian scouting (Jan 2025)

Languages: English (Professional), Tamil (Native)
